TO: ALL WALBRO HIGH PERFORMANCE CUSTOMERS
RE: WALBRO PUMP INCREASE AND WARRANTY CHANGE

Walbro has also announced they will no longer offer warranty on high performance pumps. This decision was made due to an extremely high volume of pumps tested (nearly 98%) that proved to be non-defective. Fuel contaminants, pumps being run dry, and pumps being used in wrong applications have been the major contributors to warranty claims. However, for any specific problem that occurs, we will send pump to Walbro for analysis.

We apologize for these changes.

Sincerely,

V. E. PETERSEN CO.
